Details

Small air compressor for the operation of our air lockers.

Suitable for use in two air lockers. Due to its small size it can be easily installed even in the most modern cars with very limited space.

We deliver it together with all parts and accessories needed for the complete installation of a locker, such as wiring harness, operation switch, mounting screws, etc.

It is only suitable for use with the newer Protrack lockers for XL-7 and New Grand Vitara.

It is not sold in part for the use in lockers of other manufactures.

Units in box: 1 set
